

COMPANY PROFILE · 2026

Get found. Get verified. Get trusted. Get paid.

SupplierAdvisor® is a supply-chain operating system built around a verified network of companies: trade, operations, quality and finance in one workspace, for B2B, B2G and B2C.

B2B Business to business

B2G Business to government

B2C Free SA Member account

The world's most trusted supplier advice, and the operating system behind it.

SupplierAdvisor® is a supply-chain operating system built around a verified network of companies. It is designed to help African SMEs, suppliers and buyers do four things that decide whether a business grows: get found, get verified, get trusted and get paid.

01

Get found

Company-to-company connections, marketplace reach and supplier discovery, so buyers who need exactly what you do can find you.

02

Get verified

Company verification and certificate metadata let counterparties know who they are trading with.

03

Get trusted

Buyers score every delivery on OTIFEF and peer ratings follow the relationship: a reputation you carry into the next deal.

04

Get paid

POs, quotes, orders and invoices sit on the same books, with payments and accounts receivable in the same workspace.

Not Excel. Not accounting-only. Not a multi-year ERP project.

TEAM SEATS ON
THE PLAN

WHO WE ARE

Feed. Educate. Empower.

Big Five Connect, part of the Empower side of Big Five Group™, runs SupplierAdvisor®. When an SME can be found, verified, trusted and paid, it can hire, grow and supply with confidence: empowerment in its most practical form, a fair chance to compete.

FEED

Food on the plate

Feed puts food on the plate.

EDUCATE

Big Five Learn

Big Five Learn develops leaders.

EMPOWER

Big Five Connect

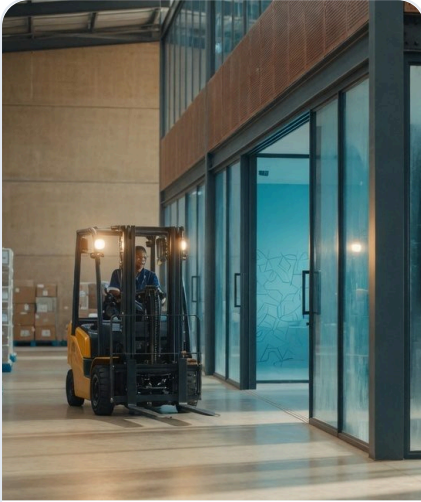

Empower opens doors to opportunity. Big Five Connect runs SupplierAdvisor®.

"Across Africa I meet business owners who make good products and give good service, yet struggle to be seen. What is often missing is access to markets, and the proof that opens them."

Dr Craig R. Muller, founder of Big Five Group™ · from "Found, verified, trusted and paid: SupplierAdvisor® as a system for empowerment", bigfivegroup.africa, October 2026

B2B.B2G.B2C. One trusted fabric.

Most platforms pick one market. SupplierAdvisor® is built so private trade, public procurement and consumer trust share the same verification, traceability and operating discipline.

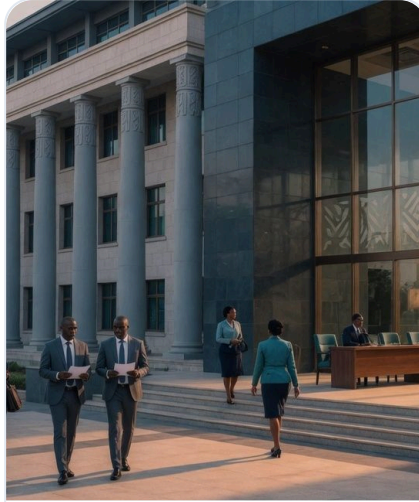

B2B

Business to business

Manufacturers, distributors, traders and brands run the full OS: network, buy and sell, inventory, make, ship, finance, SHEQ and quality, with counterparties you can score and prove.

- ✓ Verified company graph and OTIFEF ratings
- ✓ POs, quotes, orders, invoices on the same books
- ✓ Lot holds that stop the ship when QA fails

[Register your company](#)

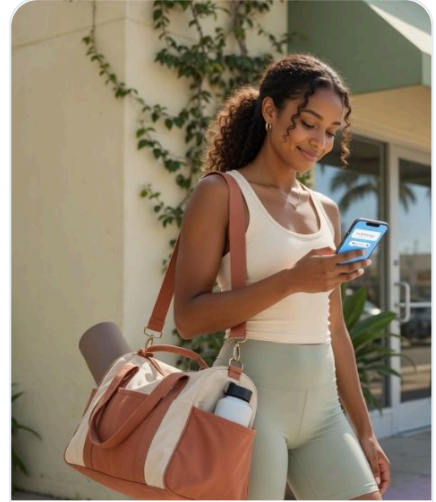

B2G

Business to government

Public entities and suppliers need transparent procurement, accountable spend and audit-ready trails, not email chains and disconnected spreadsheets.

- ✓ Transparent supplier discovery and handshakes
- ✓ Documented trade and performance scores
- ✓ SHEQ, NCR/CAPA and export packs for scrutiny

[Request government access](#)

B2C

Business to consumer

One free personal wallet. Link any business on the platform to manage that account: shop, subscriptions, bookings, check-in, family, waitlist and medical records. No company needed.

- ✓ Free app: shop, book, check in, hire, subscriptions
- ✓ Family book, waitlist, .ics calendar, gym door QR
- ✓ Pay or send proof of payment

[Create free SA Member account](#)

WHY OPERATORS JOIN

Trust is a control, not a brochure

Verification, peer stars, OTIFEF and RIAD risk live where you buy and sell, so bad counterparties show up before the next PO. Invite suppliers and customers, connect public buyers, and give consumers a path into verified brands: the same fabric of trust.

BUILT FOR MULTI-ENTITY GROUPS

One login, clean walls

Separate company workspaces, team roles and membership-scoped data: groups and brands stay clean, not tangled in one login. The same login can run a B2B or B2G company and keep a personal SA Member wallet; they never mix.

When a lot fails, the ship stops.

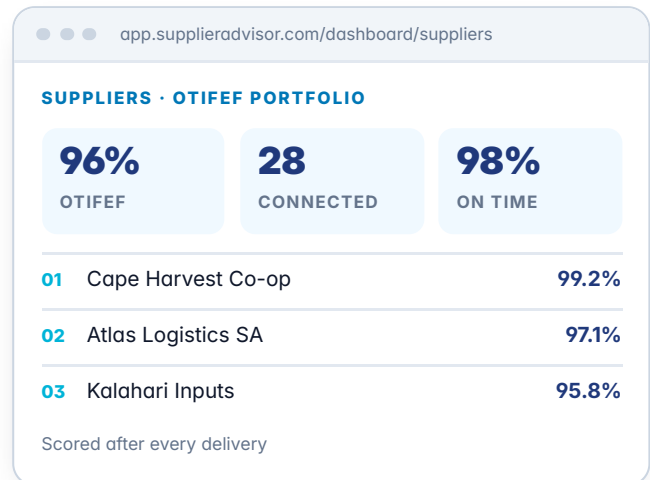

Verification, ratings, lots, HACCP and SHEQ are live controls, not after-the-fact PDFs.

OTIFEFF · ON-TIME, IN-FULL, ERROR-FREE

Score every delivery On-Time, In-Full, Error-Free. Peer stars and RIAD risk logs follow the relationship, and ratings are bilateral after trade, not vanity reviews.

For a small supplier, that record becomes a reputation it can carry into the next conversation, rather than starting from zero every time.

Product mock with sample data, as shown in the site's product demo.

Verified companies

Company verification and certificate metadata, so counterparties know who they trade with.

Lot-level traceability

Product → lot → warehouse → movement → QA. Mock recalls and hold gates before goods leave the gate.

Quality release gates

Inspections that block ship. HACCP CCPs. Auditor export packs when regulators call.

SHEQ operators use

Incidents, hazards, NCR/CAPA wired to the same inventory that runs the business.

On-chain pedigree

Optional product passports and PO escrow when capital or authenticity must be proven.

Peer ratings & RIAD

Bilateral stars after trade and RIAD risk logs that follow every supplier relationship.

EVERY PO ENDS IN A RATING

Trust is earned on real trade, not claimed in a brochure.

Purchase orders move through the same states on both sides. When the goods arrive, the buyer scores the delivery and rates the partner, and the score follows the company across the network.

Draft

Sent

Accept

Deliver

Rate

POs, quotes, orders, invoices and payments on the same books.

Being trusted means little if the invoice is lost in an inbox. On SupplierAdvisor®, the commercial trail and the money trail are one: every PO rides a trusted relationship, and every invoice lands in the same ledger.

Network

Company-to-company connections, pricing edges with connected companies, marketplace reach and invites, so every PO rides a trusted relationship, not a cold email.

Suppliers (SRM)

Discover verified partners, connect on-platform, raise POs with optional on-chain escrow, and run OTIFEF scorecards after every delivery.

Customers (CRM)

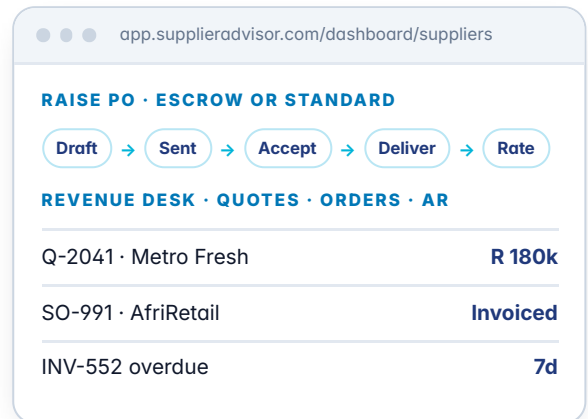

Pipeline, quotes, sales orders, invoices and loyalty, plus platform invites that turn buyers into live trading edges. Leads → quotes → orders → AR.

Finance

Double-entry CoA, journals, AR/AP, payments, bank import, VAT, fixed assets and management accounts, with live bank feeds on selected banks (FNB Integration Channel and BankLink open banking).

In-app messaging

Internal team threads and external threads with connected suppliers and customers on the same model, not email silos.

Product mock with sample data, as shown on the home page.

OPTIONAL · ON-CHAIN

Escrow on purchase orders

Where settlement needs stronger proof, optional wallet-signed escrow on purchase orders is available, without forcing crypto on every workflow.

Four steps to live ops

01

Register & verify

Company profile, team, certificates. Multi-entity groups get separate workspaces.

02

Connect & trade

Invite suppliers and customers. Handshakes, POs, docs, OTIFEF scorecards.

03

Operate the chain

Inventory, manufacturing, distribution, finance: one membership-scoped OS.

04

Prove & improve

SHEQ, QA holds, traceability, CAPA and auditor packs when it matters.

Every critical system. One company workspace.

Not a pile of apps: a single operating system for how goods, money and trust move through African and global supply chains. Every module shares the same command chrome, so teams switch systems without relearning the UI.

ALWAYS INCLUDED

Core OS

R299/mo

Control Tower, Company (identity, modules, billing), Network, Suppliers, Customers, Inventory, Operations, Quality, Finance, Intelligence and Guide: one workspace, one trust fabric.

30-day free trial · unlimited users

01

Operations

End-to-end control tower

Procure, receive, store, make, ship and fulfil on one live tower; exceptions surface first.

02

Suppliers (SRM)

Trust you can measure

Discover and invite, POs with optional escrow, OTIFEF scorecards, peer ratings and RIAD.

03

Customers (CRM)

Lead → loyalty in one flow

Leads and opportunities, quotes → orders → AR, buyer portal and reviews.

04

Inventory

Every unit has a home

SKU master, multi-site stock, QR receive, GPS transfers, lots and serials, on-chain passports.

05

Network

Verified trading graph

Connection graph, pricing edges, marketplace reach and business invites.

06

SHEQ

ISO 45001-ready control tower

Incidents, HIRARC hazard scores, NCRs and CAPAs; failed QA inspections auto-raise NCRs.

07

Quality & food safety

Inspect · hold · trace · recall

Holds that block shipping, HACCP plans with CCPs, lot pedigree, recall drills, auditor packs.

08

Finance

One ledger of truth

Journals and GL, bank allocation, VAT, fixed assets, budgets and management accounts.

09

Projects

Portfolio that ships

Portfolio, kanban boards, milestone gates, timesheets and risk registers.

10

Impact (ESG)

Carbon you can act on

Scope 1–3 style carbon tracking and report packs wired to real inventory and logistics.

11

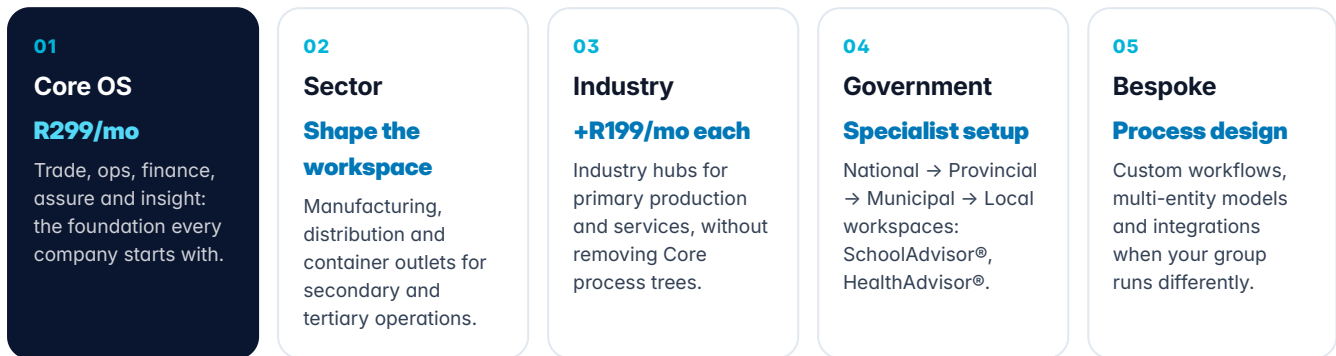

Intelligence

Signal over noise

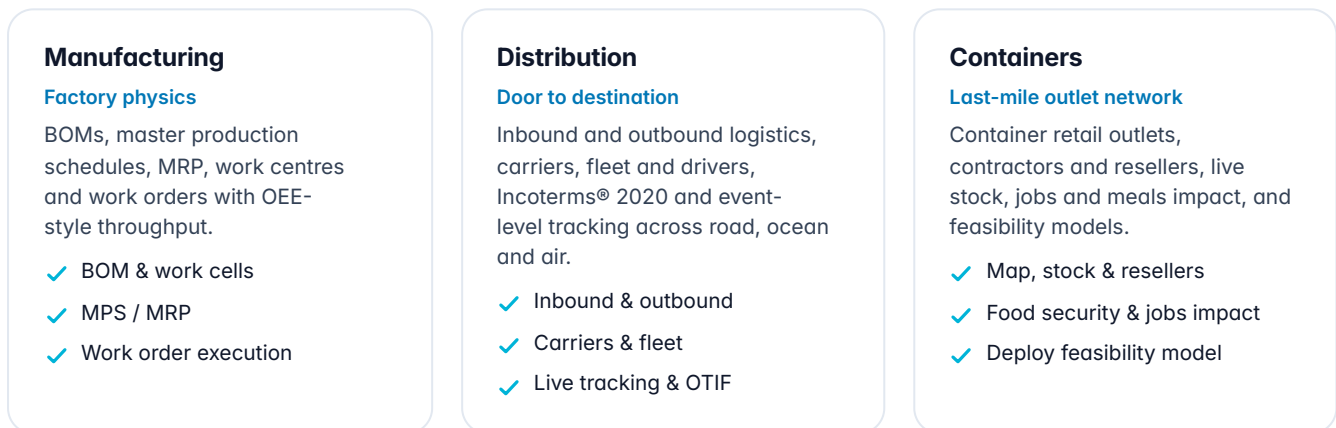

Live pulse across network, supply, demand, finance and ops, plus Super-Cube® leadership.

Core OS, then the layers that match how you trade.

Every company starts with the same Core operating system, then layers sector and industry packs for how it actually trades. Public-sector programmes and fully custom process design are specialist-led.

Sector modules · how you make and move

ALSO IN EVERY WORKSPACE

SAM messenger

SAM (Grok), the SupplierAdvisor® Messenger: in-app setup and how-to without a manual.

Guide

In-app how-to curriculum for every module.

Sales contractors

Pipeline, quotes and personal commission (4–6% programme).

Supply-chain referral

Earn 6/3/1% of partners' subscriptions (max 10%).

Software for the chain. Development for the humans who run it.

Super-Cube® is a doctoral leadership model embedded in the product, so teams grow decision quality alongside OTIFEF, cost centres and compliance.

- ✓ Leadership development in the same workspace as ops
- ✓ Intelligence pulse across network, supply, demand and finance
- ✓ Guide curriculum for every module

Vertical depth on the same fabric.

Industry Advisors add vertical depth with diaries, waitlist desks, industry PWAs, rooms, marketplace listings and in-app messages. Enable only the packs you need from Company → Modules. Most Advisors bill the operating company a subscription; members and patients never pay SupplierAdvisor®.

PRIMARY & MAKE

CropAdvisor® Agri production OS Fields, harvest, inputs, fleet fuel, labour, regen metrics and farm-to-buyer trade.	QuarryAdvisor® Aggregates & extractives OS Sites, reserves, plant, weighbridge, fleet, QA and permits.	ApparelAdvisor® Apparel OS for factory and brand Range, landed-duty BOM, critical path, QA holds that stop ship, wholesale ATS, buyer PWA.	ConstructionAdvisor® Contractor OS for building BOQ quotes, dated plan vs actuals, claim → certify → client pay, client/contractor PWA.
---	--	--	---

FITNESS & CLINICAL SERVICES

GymAdvisor® Gym & fitness services OS Coaches, rooms, packs, waitlist, phone check-in QR, member PWA, marketplace.	PhysioAdvisor® Physio & allied health OS Exclusive diaries and rooms, waitlist, treatment plans, POPIA, Rehab PWA.	DentalAdvisor® Dental practice OS Multi-chair diary, waitlist, treatment plans, Chart PWA, marketplace.
PsychiatryAdvisor® Mental health practice OS Exclusive diaries and rooms, waitlist, treatment plans, Records PWA.	MedicalAdvisor® GP & medical practice OS Multi-room diaries, waitlist, treatment plans, Rx on visits, Records PWA.	VetAdvisor® Veterinary practice OS Vets, clients, animals, consults, vaccines, waitlist, Pets PWA.

HIRE & RETAIL

HireAdvisor® Hire / rental marketplace Plant, tools, party gear and events kit; members hire free; 2.5% on the listing business.	RetailAdvisor® B2C till · QR / NFC pay Catalogue, cash or QR / NFC pay on SA Member; collect gym, clinic and hire bills at the counter.	Shared desk tools Clinic and fitness Advisors share slot waitlists and next-available queues, booking another clinician when the preferred one is full, household attendees, treatment plans with one-click book next, rooms and chairs as diary resources, an industry-branded member PWA, an opt-in marketplace listing and in-app care messages.
--	---	---

Procurement and programmes that face scrutiny.

Transparent supplier discovery, documented trade, verification, export packs — plus SchoolAdvisor® (NSNP / DBE · public sector only) and HealthAdvisor® (DoH) programme pathways on the same platform. Government programmes are set up by SupplierAdvisor® admin.

PAIN TODAY

- Opaque supplier selection
- Audit packs assembled after the fact
- No performance trail on suppliers
- Programme ops split from procurement systems
- Schools packaged as private companies by mistake

WITH SUPPLIERADVISOR®

- ✓ Verified company graph and peer ratings
- ✓ OTIFEF and SHEQ / NCR trails for oversight
- ✓ SchoolAdvisor® process design (DBE · school kitchen · SP)
- ✓ Always Public Sector packaging for schools
- ✓ HealthAdvisor® facility pathways on the OS

GOVERNMENT MODULE

SchoolAdvisor®: the public-sector pathway for school nutrition

SchoolAdvisor® runs only on the government / public-sector pathway: DBE and PEU govern catalogue, menus and compliance; schools run kitchen, learners, approved brands and serve day; service providers (SPs) deliver against school POs. Not a private industry pack.

DBE / PEU

Catalogue · menus · PEU visits · claims

School kitchen

Stock · orders · serve day · prizes

SP supply

PO → deliver → POD · SLA

National

Provincial

Municipal

Local

HEALTHADVISOR® · DOH

HealthAdvisor® brings Department of Health facility pathways onto the same OS, as an admin-set-up government programme rather than a private pack.

ACCESS

Government (B2G) is not self-serve: national, provincial or municipal offices submit a request, and a SupplierAdvisor® admin approves it before the workspace opens.

CASE STUDY · DBE SCHOOL NUTRITION NETWORK, KZN

~6 000

KZN schools

~1 800

service providers

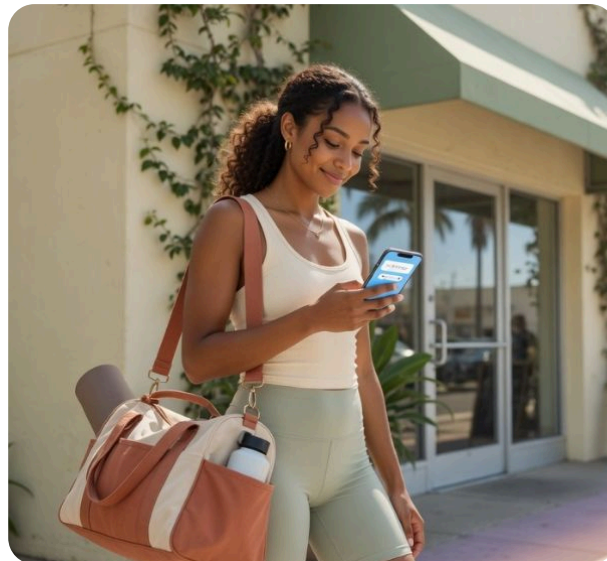

Approximate programme scope as published in the Big Five Group company profile; not audited headcount.

One personal wallet for every business on the platform.

Create one free SA Member profile. Link it to any gym, clinic, hire desk or shop on SupplierAdvisor®, then manage that account: book, buy, check in, family, waitlist, subscriptions, medical records, pay and proof, and push alerts. Desks can still print a QR or send WhatsApp.

FREE FOR MEMBERS

No subscription, no platform take-rate. Brands charge their own gym, clinic or hire prices. You pay them, not us.

Install as an app

Add to the home screen: a full-screen PWA for shop, brands, check-in and your profile.

Create & verify yourself

Name, email, phone, city. SA ID via VerifyNow or passport via Dedit.

Link any business

Search a company, scan a desk QR, or tap Add to wallet on its public page.

Book your Advisor

Medical, dental, physio, psychiatry and gym: open diary slots on your phone.

Hire golden path

Request → docs → approved → pay → out → return → done, with next action and deposit.

Shop sale & hire

Browse what brands are selling or hiring out, and listed gyms and clinics.

Gym class check-in

Scan the studio QR; your coach and the desk see you are in.

Family & household

Book a child or household attendee onto a class or clinic slot.

Waitlist + calendar

Join the waitlist when a slot is full; download .ics or open Google Calendar.

Pay & proof of payment

See charges from the gym or clinic, pay in-app, or upload proof.

Your medical information

Allergies, scripts, medical aid and care notes your practice shares.

Share your care profile

Consent to share care notes with another linked Advisor desk.

Push alerts

Appointment reminders, waitlist offers and hire updates on your phone.

Reviews after visit or hire

Rate the gym, clinic or hire desk once the visit or hire is done.

Dual-life identity

One login for your personal wallet and any company you operate, kept separate.

Open or create yours at supplieradvisor.com/me.

Excel. Xero. Enterprise ERP. Or the operating system they never became.

Spreadsheets fragment truth. Accounting clouds stop at the books. Major ERPs take years and seven figures. SupplierAdvisor® is the supply-chain OS: network and in-app messaging, ops, finance, quality, people, trust and Industry Advisors in one membership.

FLEXIBLE BUT FRAGILE

Excel / Sheets

Everyone can edit.
Nobody owns a single source of truth. No network, no holds, no OTIFEF, no group tree.

BRILLIANT FOR BOOKS

Xero-class accounting

World-class ledgers and bank feeds, but not a full supply-chain, multi-entity group OS or trading graph.

POWER AT A PRICE

Major ERP

SAP, Oracle, Dynamics: deep modules and hierarchy, 12-24 month projects, enterprise licence gravity.

THE SUPPLY-CHAIN OS

SupplierAdvisor®

Network, ops, finance with live bank feeds on selected banks, people, Industry Advisors, branded PWAs and free SA Member.

CAPABILITY BY CLASS OF TOOL, FROM THE COMPARISON ON SUPPLIERADVISOR.COM

Comparison is illustrative of typical capability classes (spreadsheets, cloud accounting, enterprise ERP suites), as on supplieradvisor.com. Individual products and add-ons vary.

Built for operators who get audited.

B2G buyers and serious B2B partners expect roles, trails and holds, not screenshots of a spreadsheet.

Role-based access

Owner, admin, finance, ops, viewer, sales contractor: module rights per person.

Company-scoped data

Membership gates every API. Multi-entity groups keep workspaces clean.

Audit-ready trails

Journals, PO status, QA holds, CAPA and activity logs for scrutiny.

Cloud Postgres + RLS

Supabase-backed, with row-level security patterns and service isolation.

Modern auth

Privy-based sign-in with team invites: no shared hero passwords.

Controls where trade happens

SHEQ, holds and verification live in the same OS as POs and stock.

HireAdvisor® hire GMV	2.5% to the listing business
Government & bespoke	Specialist-led setup

FOUNDING PARTNERS
First 25 companies: free for life
Early companies on SupplierAdvisor® receive complimentary lifetime access. After the founding cohort fills, the standard trial and paid tiers apply.

PAID TO GROW A GOOD NETWORK
Referral fees L1 6% · L2 3% · L3 1% (max 10%)
Invite real trading partners. When they pay for SupplierAdvisor®, you earn a share of their platform subscription, not product sales. Fees apply only to qualifying subscription payments.

REFERRAL EXAMPLE, FROM /PRICING	WHO EARNS	LEVEL	FEE
You invite Company A. They invite Company B. B invites Company C. When C pays a monthly subscription, each level up the chain earns its share. If you invited C directly, you would earn L1 instead. Prepaid terms use the same percentages on the amount actually paid.	Company B	L1 · 6%	R17,94
	Company A	L2 · 3%	R8,97
	You	L3 · 1%	R2,99
	Total shared (of R299)		R29,90

No card required for the trial · cancel anytime. Prices in ZAR as listed on supplieradvisor.com/pricing. After the trial, subscribe in My Business → Billing and pick any tier; early renewals extend your access period.

Why are you joining us? Member, business or government.

Three paths only. B2C is a free personal wallet. B2B then picks private, public or NPO. B2G waits for platform admin approval.

B2C · FREE

Member account

One personal wallet. Link any business to shop, book, check in, family-book, join a waitlist, pay or send proof, and share care notes after you consent. No company, no card.
